

Welcome to the 34th edition of Build Battersea, our dedicated construction newsletter to keep our neighbours updated on works at Battersea Power Station. Please get in touch if you have any questions about current or upcoming works on site.

THE POWER STATION

(Phase 2)

- Using new technology to restore an icon

Excellent progress is being made to restore the Grade II* listed Power Station, with internal works taking place at Switch House West following the installation of heritage windows. This includes fit-out works of the new apartments and shared areas.

Our contractors are using innovative off-site construction methods to create the new structures in Switch House East. Instead of on-site concrete pours, off-site manufacturing reduces the number of vehicle trips to site, increases efficiency in the build process and minimises disruption to our neighbours.

The Electric Boulevard (Phase 3a)

We are excited to confirm that excavation works have been completed at Phase 3a and the basement concrete slab level is now 90% complete.

With the concrete cores of the new buildings progressing well, works are underway to construct the structure for the Foster + Partners designed building within Phase 3a. The structure has already reached upper-ground floor level and will become more visible in the coming months.

To support the range of works taking place, there are now seven tower cranes operating at Phase 3a.

Phase 4a

Following the completion of initial works at the Phase 4a site on Sleaford Street, work is now underway to demolish the existing buildings on site. New hoarding has also been installed along the Thessaly Road section of the site to ensure security and maintain the appearance of the site.

Noise and vibration monitors are in place around the site to monitor the works and our contractors are aiming to minimise any potential disturbance to neighbouring residents.

Did you know?

On Saturday 30 March Battersea Power Station joined individuals, cities and businesses around the world in celebrating Earth Hour, which was marked by the chimney lights being switched off.

Find out more at our Build Battersea Neighbourhood Group meetings

You are invited to attend our bi-monthly Neighbourhood Group meetings where our team provide updates on the works taking place across the Power Station site and answer questions. To find out more and to register your interest in attending the next meeting in May, please email buildbattersea@cascadepr.co.uk or call **0800 088 4570**.

Are you interested in working at Battersea Power Station?

For more information on job opportunities at Battersea Power Station, use the details below:

- **For construction jobs:** Contact Karen Gray, Employer Engagement Manager at Battersea Power Station, by emailing: kgray@batterseapowerstation.co.uk
- **For jobs in hospitality, catering or estate management:** please contact Battersea Academy for Skills and Employment by emailing: hello@baseskillsacademy.co.uk or visit baseskillsacademy.co.uk

General working hours on site

In agreement with London Borough of Wandsworth the main site working hours are:

- **Monday to Friday: 8am to 8pm**
- **Saturday: 8am to 5pm**
- **Sunday and Bank Holidays: works subject to prior approval by the Council**

Agreed out-of-hours works

The London Borough of Wandsworth has agreed that works can take place overnight around the Power Station between the hours of 8pm and 8am, including on Saturday and Sunday. Measures are in place to minimise disturbance to our neighbours and the Construction Managers frequently review planned louder works so that they can be carried out during general site working hours.
